

2024 Annual Report

Serving communities of the Inland Northwest.

“Contributions made by the Here for Good Foundation will continue to reflect the needs of our members, their families, and the organizations they hold dear. We’re inherently linked to the success and vitality of the many diverse communities that our members call home.”

— Lindsey Myhre
President and CEO, STCU

The STCU Here for Good Foundation was launched in January 2023 to ensure that the credit union could respond to the critical needs of the communities it serves. Beginning with a \$1 million endowment, the foundation focuses on supporting education, arts and culture, and economic development.

Join us in strengthening our communities.

Building community. Forging connections.

Across three states and 49 branches serving over 300,000 members, we’re fortunate enough to see just how close-knit and interconnected our communities are.

That’s why – in addition to addressing critical needs like housing, education, and food insecurity – our goal with the STCU Here for Good foundation is to fund opportunities to connect, to bring people together in a positive way, to celebrate, and to learn. From multicultural events to public art installations, youth centers to senior centers, we seek to expand horizons and strengthen the bonds between us all.

2024 GRANT RECIPIENT

Emerge | Coeur d’Alene

Emerge is a collective art experience that engages the community with creative events, classes, and an annual block party in downtown Coeur d’Alene. They also operate a retail gallery for emerging artists to cultivate their careers as professionals.

2024 GRANT RECIPIENT

Dream Builders Education Foundation | Tri-Cities

Founded in 2009, Dream Builders Education Foundation supports Eastern Washington learners through grants for K-12 STEM teachers and grants for early learning teachers and helpers. Grant funding helped support the Artful Response to Tiered Support (A.R.T.S) program, which uses arts integration to help students with complex needs.

2024 Grant recipients
