Service fee

Outgoing transfer fee	$20.00 per transfer

Truth-in-Savings disclosures

Except as specifically described, the following disclosures apply to the account named above.

1. **Rate information.** The Dividend Rate and Annual Percentage Yield on your Individual Retirement Accounts are set forth above. The Annual Percentage Yield is a percentage rate that reflects the total amount of dividends to be paid on an account based on the dividend rate and frequency of compounding for an annual period. The Annual Percentage Yield is based on an assumption that dividends remain on deposit until maturity. A withdrawal will reduce earnings, as will any request to delay the crediting of dividends.
2. **Nature of dividends.** Dividends are paid from current income and available earnings after required transfers to reserves at the end of the dividend period. The Dividend Rate and Annual Percentage Yield are the prospective rates and yields that STCU anticipates paying for the applicable dividend period.
3. **Compounding and crediting.** Dividends will be compounded and credited as set forth above. The Dividend Period for each account is set forth above. The Dividend Period begins on the first calendar day of the period and ends on the last calendar day of the period.
4. **Balance information.** The minimum balance required to open each account is set forth above. The minimum balance required to obtain the stated Annual Percentage Yield is set forth above. If the minimum balance is not met, you will not earn the stated Annual Percentage Yield. For all dividend-bearing accounts, dividends are calculated by the daily balance method, which applies a daily periodic rate to the principal in the account each day.
5. **Accrual of dividends.** Dividends will begin to accrue on both cash and non-cash deposits (e.g. checks) on the business day you make the deposit to your account. Accrued dividends will be paid if you close your account before accrued dividends are credited.
6. **Transaction limitations and fees.** There is a $20 outgoing transfer fee for any IRA closed and the funds transferred from STCU to an account of yours at another financial institution. For the IRA select certificates, you may not add funds to your account after your account is opened.
7. **Maturity.** For IRA select certificates, your account will mature within the term or on the maturity date set forth on your Account Receipt or Renewal Notice.
8. **Early withdrawal penalty.** For IRA select certificates, we may impose a penalty if you withdraw any of the principal before the maturity date, or the renewal date, if this is a renewal account. The Early Withdrawal Penalties per account are set forth above. The penalty is calculated as a forfeiture of part of the dividends that have been or would be earned on the account. It applies whether or not the dividends have been earned. In other words, if the account has not yet earned enough dividends or if the dividend has already been paid, the penalty will be deducted from the principal. At our option, we may pay the account before maturity without imposing an early withdrawal penalty when an account owner dies or is determined legally incompetent by a court or other body of competent jurisdiction. All STCU IRA select certificates listed above are automatically renewable. For all automatically renewable IRA select certificates you will have a grace period of ten (10) days after maturity in which to withdraw funds from the account without being charged an early withdrawal penalty. IRA select certificates are nontransferable and nonnegotiable. The funds in your account may not be pledged to secure any obligation of an owner, except obligations with STCU.
